Dear Mr. Weisberg,

I saw in the front of Case Open I could order books directly from you. Post Mortem : JFK Assassination Coverup Smashed is the only one I don't own and would like to order it. I don't know how much to send please advise how you wish me to pay on call and I will send a check before you ship it.

I have been interested in the assassination since Whitewash & Rush to Judgement were published. I have the originals. Since I have bought every book I could get me hands on. I have been able to get my son we is 24 interested. He has read most of my books and watched every video we could get our hands on. We have been to Dallas. I think we need younger people involved so someone is around to carry the ball. In reading Case Open I found it interested you have a large number of documents. Do you ever let ordinary people like myself go thru them? I would really like to keep my sons interest and if I could make him feel like he could actually get to some of the paper work I think it would make him interested for ever.

Thank you for all the work you have done on the assassination.

Sincerely,
Kurt
